Crucible is a collaborative code review application by Australian software company Atlassian. Like other Atlassian products, Crucible is a Web-based application primarily aimed at enterprise, and certain features that enable peer review of a codebase may be considered enterprise social software.. Crucible is particularly tailored to distributed teams, and facilitates asynchronous review and ...

Crucible (software) - Wikipedia

A crucible is a ceramic or metal container in which metals or other substances may be melted or subjected to very high temperatures. While crucibles historically were usually made from clay, they can be made from any material that withstands temperatures high enough to melt or otherwise alter its contents.

Crucible - Wikipedia

A Crucible Moment calls on educators and public leaders to advance a 21st century vision of college learning for all students—a vision with civic learning and democratic engagement an expected part of every student's college education. The report documents the nation's anemic civic health and includes recommendations for action that address campus culture, general education,
