Land grabbing is the contentious issue of large-scale land acquisitions: the buying or leasing of large pieces of land by domestic and transnational companies, governments, and individuals. While used broadly throughout history, land grabbing as used in the 21st century primarily refers to large-scale land acquisitions following the 2007–08 world food price crisis.

Self-confidence is an essential part of humanity. A person with self-confidence generally likes themselves, is willing to take risks to achieve their personal and professional goals, and thinks positively about the future. Someone who lacks self-confidence, however, is less likely to feel that they can achieve their goals, and tends to have a negative perspective about themselves and what they ...

Behavioral health problems are predictors of youth running away from home or becoming homeless. 32 Higher risks of exposure to violence or trauma can contribute to behavioral health problems among homeless children and youth. Unaccompanied youth are more likely to be depressed and to have mental health or substance abuse problems compared with housed youth.
