Division of Engineering, Business and Information Technologies. The Digital Fabrication Major is structured to provide students with the knowledge and skills necessary to work as an entry-level technician.

Digital Fabrication Technologies: Digital Fabrication

Electronic design automation (EDA), also referred to as electronic computer-aided design (ECAD), is a category of software tools for designing electronic systems such as integrated circuits and printed circuit boards.The tools work together in a design flow that chip designers use to design and analyze entire semiconductor chips. Since a modern semiconductor chip can have billions of ...
