Product Overviews. Introduction To CaseMap and TimeMap (24 Minutes) This webinar is primarily an overview of CaseMap, our flagship case analysis tool. You'll see numerous examples of practical and polished work product including TimeMap timelines created in seconds with our timeline graphing tool.

CaseSoft | Case Analysis Made Easy - CaseMap Suite

Survival analysis is a branch of statistics for analyzing the expected duration of time until one or more events happen, such as death in biological organisms and failure in mechanical systems. This topic is called reliability theory or reliability analysis in engineering, duration analysis or duration modelling in economics, and event history analysis in sociology.

Survival analysis - Wikipedia

The Introductory Guide is intended for use in conjunction with the MedDRA Browser, available with each MedDRA subscription.

Introductory Guide for MedDRA - who.int

The shear stress symmetry holds in the three-dimensional case. This makes the above 3x3 matrix--and hence the corresponding stress tensor--symmetric: only three of its six shear stress components are independent ones. Consequently, the stress tensor has in general six different components: three ...

Provides detailed reference material for using SAS/STAT software to perform statistical analyses, including analysis of variance, regression, categorical data analysis, multivariate analysis, survival analysis, psychometric analysis, cluster analysis, nonparametric analysis, mixed-models analysis, and survey data analysis, with numerous examples in addition to syntax and usage information.

SAS/STAT(R) 9.2 User's Guide, Second Edition

For example, a wavelet could be created to have a frequency of Middle C and a short duration of roughly a 32nd note. If this wavelet were to be convolved with a signal created from the recording of a song, then the resulting signal would be useful for determining when the Middle C note was being played in the song.

Wavelet - Wikipedia

The fire at Grenfell Tower in London was a catastrophe which resulted in the deaths of 72 people. As well as the legal Inquiry into the circumstances there was an Independent Review of Building Regulations and Fire Safety commissioned by government that was published in May 2018.
