SPECTRO ARCOS is the high resolution Inductively Coupled Plasma OES spectrometer designed to meet the world's most demanding elemental analysis requirements.

SPECTRO ARCOS - Inductively Coupled Plasma | SPECTRO

The single-particle analytical technique can quantitate the difference between ionic and particulate signals, measure the particle concentration (particles per milliliter), and determine the particle size, size distribution, particle agglomeration, and dissolution. As a result, ICP-MS is a key analytical technique in assessing the fate, behavior, and distribution of nanomaterials in the ...

Single-Particle ICP-MS: A Key Analytical Technique for

VII Professor of Medicine, Begum Khaleda Zia Medical College, Dhaka, Bangladesh VIII Professor of Medicine, Dhaka Medical College, Dhaka, Bangladesh Snakebites can present local or systemic envenomation, while neurotoxicity and respiratory paralysis are the main cause of death. The mainstay of ...

Asthma is a common heterogeneous chronic disorder of the airways, characterized by variable usually reversible and recurring symptoms related to one or more of airflow obstruction, bronchial hyper-responsiveness, and underlying inflammation.

The Saudi Initiative for Asthma - 2016 update: Guidelines

Footnote a. Estimates based on the mean concentration of total chromium of 2.0 µg/L in unfiltered distributed drinking water in Ontario as reported in the Ontario Drinking Water Surveillance Program for 1997-2007 (OMOE, 2008), and assuming that Cr(VI) represents 100% of total chromium in drinking water (Sanexen, 2009).

Guidelines for Canadian Drinking Water Quality: Guideline

Course Description. Asthma Patient Care. 10-contact-hour continuing education course on asthma signs and symptoms, diagnosis and assessment, pharmacologic treatments, long-term management, complications, breathing difficulty, and managing attacks. Applicable for nursing, occupational therapy, and other practitioners.
